Ciam Industrie completes acquisition of Criocabin and Cierreesse: the Group strengthens its leadership in the professional refrigeration sector

CIAM Industrie announces the completion of the acquisition of Criocabin and Cierreesse, acquiring 100% of their respective shares. With this strategic move, the Group further consolidates its leading position in the international market for professional refrigeration and Ho.Re.Ca. furniture.

The Group had already announced, shortly after the summer, the signing of a binding agreement aimed at acquiring the two companies. The transaction was finalized on October 8, 2025, for Cierreesse and on November 13, 2025, for Criocabin, thus completing the process initiated in previous months.

The integration of Criocabin, including the Zoin and Mondel brands, and Cierreesse, including the AMC and Benius brands, into CIAM Industrie represents a decisive step toward creating a highly innovative group capable of offering complete and customized solutions, with constant attention to sustainability, design, and technology.

Federico Malizia, President of CIAM Industrie, stated:

«These acquisitions confirm our growth strategy and our commitment to building a strong and competitive group, capable of meeting the needs of a constantly evolving market. Combining the expertise and experience of CIAM, Criocabin, and Cierreesse will allow us to expand our range of products and services, ensuring increasingly innovative and high-quality solutions for our customers. »

With this operation, CIAM Industrie strengthens its presence in international markets and prepares to develop new industrial and commercial synergies, while keeping at the core the values of excellence and reliability that have always distinguished the Group.
